

Streetlight Ministries Inc
Wichita, Kansas, 67226
April 5, 2011

Dear People Served by the Streetlight Food Center,

In June 2009 we converted an old 2 car garage into a building that could pass the inspection of the Kansas Food Bank and the "Food Garage" was born. Over the past 22 months, Streetlight Ministries has distributed food boxes to families representing 35,521 individuals. It is only with donated funds that we were able to financially provide the food boxes that were given. We the Board of Directors of Streetlight Ministries regrets that we have recently received notice from the City of Wichita that we will no longer be allowed to distribute food from this location. This is primarily due to a complaint from a neighbor that their driveway was blocked. This brought special attention to the Residential Zoning regulations which do not allow what we are doing. We have been given permission to stay open through the month of April, but after that the sign must come down and the doors will be closed.

It has been a pleasure to serve God with this Food Ministry, and we are pursuing other options and locations, possibly renting space from a local church that would be willing to partner with us. Because of our financial limitations, we cannot afford a building with utilities, so we are depending on God to place people in our path that can provide either funding or a location. If it is God's will that this Food Ministry continue, then we will open again at a later date. It is our heart's desire to serve again, but if He does not open the doors for us in another location, then we wish all of you well, and our prayers will be with you.

Sincerely,

Streetlight Ministries Board of Directors
